

Investment Manager Due Diligence Questionnaire — Completed Draft

Manager: Chester Asset Management Pty Ltd

Product: Chester High Conviction Fund (APIR: OPS7755AU)

Generated by Othello Data Room · 10 June 2026 · 5 of 5 responses approved

Question 1 — Licensing

Provide a copy of the organisation's AFSL or international equivalent. Where the organisation operates as a CAR, provide the relevant AFSL. Does the AFSL contain any special conditions?

Status: Complete — generated from knowledge base

Chester Asset Management Pty Ltd (CAM) operates as a Corporate Authorised Representative of Copia Investment Partners Ltd (ABN 22 092 872 056), holder of Australian Financial Services Licence No. 229316. Copia also acts as Responsible Entity for the Chester High Conviction Fund. A copy of the licence is attached. The AFSL contains no special conditions beyond those standard for licensees of its class; authorisations cover dealing in, and advising on, interests in managed investment schemes and operating registered schemes. Copia oversees CAM's authorised-representative activities under its licensee monitoring and supervision program.

Question 2 — Ownership and structure

Please detail business ownership and/or structure.

Status: Complete — generated from knowledge base

Chester Asset Management Pty Ltd is a boutique Australian equities manager established in April 2017 by Rob Tucker and Anthony Kavanagh. The business is 100% employee-owned by its three Portfolio Managers — Rob Tucker, Anthony Kavanagh and Luke Howard — with no external or institutional shareholders, and no changes to the ownership structure are planned. CAM outsources non-core functions by design: Copia Investment Partners Ltd provides Responsible Entity, distribution and administration services for the Chester High Conviction Fund, leaving the five-person investment team focused solely on portfolio management.

Question 3 — Investment philosophy

Provide a summary of your investment philosophy (as it relates to this product).

Status: Complete — generated from knowledge base

Chester's philosophy is grounded in the view that equity markets are not perfectly efficient, and that disciplined fundamental research can exploit mispricing over the medium term. For the Chester High Conviction Fund this is expressed through the team's Quality–Valuation–Edge (QVE) framework: each position must demonstrate business quality (assessed across operating, financial and corporate-governance risk), trade at a discount to assessed intrinsic value, and offer an identifiable analytical edge not reflected in consensus. The Fund is benchmark-unaware and concentrated — 25 to 40 stocks drawn primarily from the S&P/ASX 300, with up to 10% in non-index (pre-IPO) names and up to 20% cash — and targets outperformance of the S&P/ASX 300 Accumulation Index of 5% p.a. over rolling three-year periods, with expected tracking error of 5–10%. Equal emphasis is placed on minimising capital drawdown: the team treats avoidance of permanent capital loss as the most reliable driver of long-term outperformance. The approach has been applied consistently since the Fund's inception in April 2017 — and by lead Portfolio Manager Rob Tucker on the same basis since 2005.

Question 4 — Insurance

A copy of the certificates of currency from the Manager's insurance brokers certifying in respect of each policy of Insurance: (a) the period the Insurance is current; (b) the name of the insurer(s); and (c) the amount insured and the limits of liability.

Status: Complete — resolved via information request

The Manager maintains the following insurance program, placed with Chubb Insurance Australia Ltd. Certificates of currency for all five policies are attached.

Policy	Insurer	Limit	Expiry
Professional Indemnity	Chubb Insurance Australia Ltd	\$10m	26 Oct 2026
Directors & Officers	Chubb Insurance Australia Ltd	\$10m	26 Oct 2026
Electronic & Computer Crime	Chubb Insurance Australia Ltd	\$2m	14 Sep 2026
Fraud	Chubb Insurance Australia Ltd	\$20m	26 Oct 2026
Cybersecurity	Chubb Insurance Australia Ltd	\$2m	14 Sep 2026

FLAG — Information request (resolved)

The knowledge base contained a Certificate of Currency for the Cybersecurity policy only (5. Copia Cyber COC 2025 - External Version.pdf). Certificates for the Professional Indemnity, Directors & Officers, Electronic & Computer Crime and Fraud policies were requested in-view. The user uploaded Chubb Combined Certificate of Currency 2026.pdf, which completed this response and was synced to the knowledge base for future use.

Question 5 — Funds under management

Total FUM (Firm Wide) (in AUD) — Ensure you provide the latest FUM data e.g. as at 28 February or 31 March 2026.

Status: Complete — manually validated

Total firm-wide FUM was A\$2,310 million as at 31 May 2026 (manually confirmed). Australian equities is the firm's sole asset class. Recent history: A\$933.82m (31 Dec 2023); A\$1,341.85m (31 Dec 2024); A\$2,234.43m (31 Dec 2025).

FLAG — Manual validation (resolved)

The response was drafted from the most recent knowledge-base source (Diversa IM Review completed response; FUM as at 31 December 2025) against a requested as-at date of 28 February / 31 March 2026. Marked as validated by the user with audit note: "Confirmed with Copia ops — A\$2.31bn as at 31 May 2026."
